

# How to Use New Voting Machines of Kind Now in Herald Office

Instruction Given to Make It Easier When Election Day Comes Around.

Cut No. 1—Voting a Straight Ticket.

"That's easy." "What a snap!" "Just like falling off a log!" "It's a snap!" These and numerous other expressions are heard all day long as Salt Lake voters register a vote on the big standard voting machine on exhibition in The Herald's business office. Nearly a thousand votes have been registered on the machine in two days. No instructor is needed to explain things. With help from the crowds that stand about the machine the student soon catches on to its mechanism and before leaving feels confident that he can scratch his ticket all to pieces or vote it straight.

At the rate of 500 votes per day two-thirds of the voters will have registered their first ballot on the machine at The Herald office, before it is taken away. Its mechanism is so simple that some enthusiastic voters have attempted to "beat" it. They have tried to pull down two ticket registers at once, hold the indicators down and beat some candidate out of a vote but it would not work. Others have tried to register two votes but it could not be done. Every part of the machine is locked up tight and the only way a vote can be registered when in operation is to go in the booth and pull the curtain lever.

## POLICEMAN UNDER ARREST

San Francisco Bartender Robbed While Being Taken to Hospital.

San Francisco, Oct. 12.—John Law, a patrolman of the San Francisco department, is under arrest on a charge of robbery. Law is accused of having robbed John Lovejoy, a Sacramento bartender, who was shot early this morning in a quarrel over a woman. Lovejoy was unconscious when removed to the Park Emergency hospital by Law and another policeman. After recovering consciousness, Lovejoy discovered that a roll of bills, amounting to \$500, had been reduced to \$500.

Dr. Hill of the hospital started an investigation, and Law, among others, was searched in spite of objections he made. A number of bills were found in Law's possession and he was formally accused of the robbery by Chief of Police Diman, who stripped him of his star and ordered him under arrest.

Law had a good record in the department, of which he has been a member for twelve years. He has recently acted as bail for Judge Connel's department of the police court.

## LOOKING UP EVIDENCE.

Standard Oil Suspected of Continuously Violating the Law.

Washington, Oct. 12.—In response to inquiries today regarding the status of the investigation into the affairs of the Standard Oil company, with a view to determining whether the company is operating in violation of the Sherman anti-trust law, Attorney General Moody said that Messrs. Morrison and Kellogg, who were appointed to investigate the Standard Oil methods had accumulated vast amount of testimony bearing upon the case.

This testimony was now being gone over and it was quite likely that a definite conclusion would be reached within the next few weeks as to whether there had or had not been violations of the anti-trust law.

Chemistry and Metallurgy especially adapted to the needs of mine and smelter men is taught at the Y. M. C. A. Evening Institute.

## POPE IN GOOD HEALTH.

Rome, Oct. 1.—The pope, who is in perfect health, received many people in private audience today, including Archbishop Mazzella, of Rossano, Italy, and the Rt. Rev. E. Grouard, apostolic vicar of Alibabasca, Canada, entertaining the latter tonight about the condition of the church of Canada.

## STRIKE MAY EXTEND.

New Orleans, Oct. 12.—Clerks in the employ of the Southern Pacific railroad here struck for more pay, for fixed hours of employment and for pay for overtime. The strikers said the strike would extend over the entire division.

Try a McCarty \$2.00 Hat, Wilson Annex.

## RAILWAY CLERKS STRIKE.

El Paso, Tex., Oct. 12.—Railway clerks on the Southern Pacific railroad between El Paso and New Orleans belonging to the Order of Railway clerks are on strike. Thirty-seven men are out here. The strikers demand recognition of the union, an increase of ten per cent in wages and time and a half pay for overtime.

## WRECKAGE WASHED ASHORE.

Portland, Me., Oct. 12.—Wreckage of the British schooner, Earl D. of Annapolis, N. S., was washed ashore on Moose Island near Jonesport. Four of the crew are missing.

on the Socialist ticket as shown in illustration No. 2. The indicator "5b" is turned back (up) into place. Now you want to vote for George B. Finch on the Democratic ticket for treasurer. In doing so you will pull down the indicator "5b" over Finch's name and the split is completed. No indicator can be pulled down over a candidate until the indicator over the candidate you wish to scratch is pushed up into place.

After arranging the ticket thus, the lever is turned back to the right. This opens the curtain and registers one vote for every candidate that has an indicator left down over his name. Where there are two or more persons to be elected to the same office as shown for assessors in illustration No. 2, any three can be voted for regardless of the location of names. Only three, however, can be voted for as shown in illustration No. 3. In voting on questions, which are arranged at the top of the machine as shown in illustration No. 3, turn the pointer to eight "yes" or "no" and leave it there.

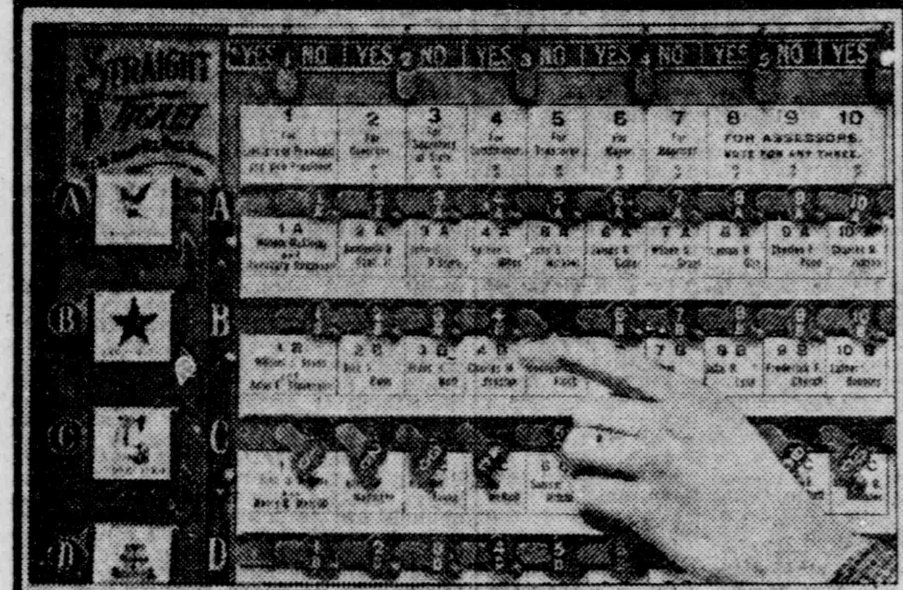

The vote as indicated in No. 3 shows that the voter has pulled the Socialist Party lever, "C," and split for treasurer "5b." He has turned down the indicators "5a," "5b" and "5c." He has turned the question pointers No. 1 and 2 to "yes" and No. 4 to "no." As the above operation only indicates his vote he can make any change he desires before moving the curtain lever back to the left to register his vote.

## Count Is Quick.

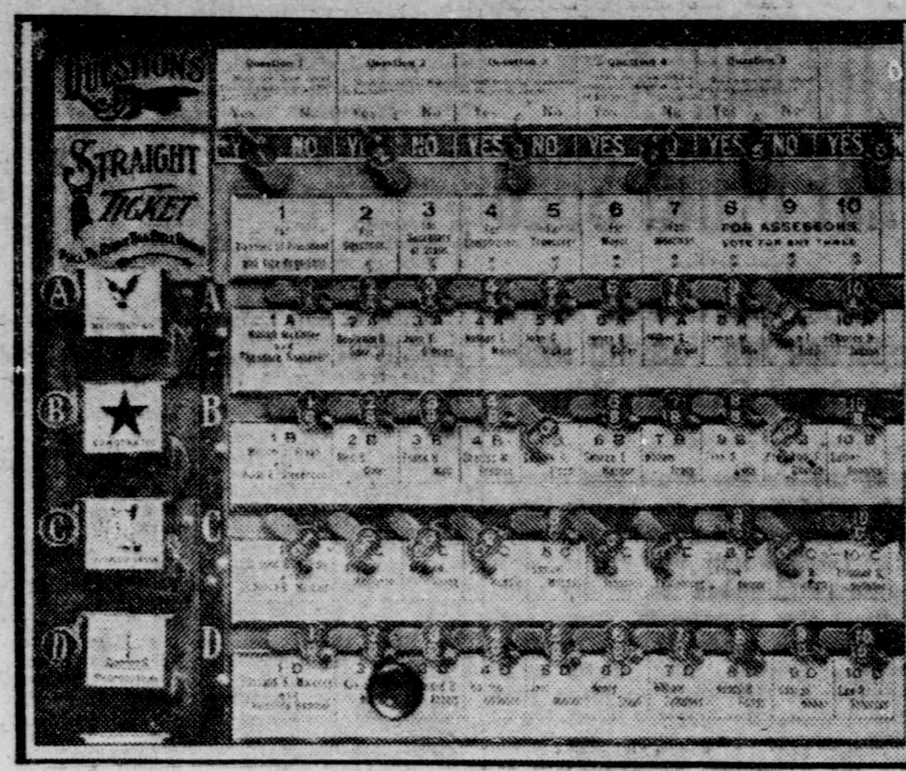

S. C. Hamilton of the United States Standard Voting Machine says that he takes but ten minutes to unlock the machine and make a list of the totals of votes for every candidate. It is possible to have the entire vote of the coming election where voting machines are used, within an hour after the polls are closed.

"Since the adoption of these machines," Mr. Hamilton says, "more straight tickets have been cast than ever before. The women in many cases out of ten vote a straight ticket. They seem satisfied to pull the party lever down and then pull the curtain lever back and let it go at that. It is not difficult to split a ticket but they seem to fear that they will get something wrong and lose their vote."

The election officials will be given instructions by Mr. Hamilton within a few days in regard to the machine.

Cut No. 2—Scratching a Candidate.

Cut No. 3—Set for Socialist Ticket, Treasurer Scratched, and for One Assessor on Each of Three Tickets.

The officials will receive the keys for the machines on the morning of the election. The custodian will see that the machines are in proper condition for voting. Seals are put on the machines so that they cannot be tampered with before the polls are opened. After the polls are closed, similar seals are placed on the curtain lever so that it cannot be operated.

The law of the state provides a penalty of fine and also imprisonment for any person found guilty of tampering with the machine or attempting to commit fraud or interfere with the proper conducting of an election where a voting machine is used. Placards have been printed to this effect and will be placed in each voting district.

## FAIRBANKS IN HAWKEYE STATE

Iowa Farmers Urged to Stay by the Republican Party a Little Longer.

## COMPLIMENT TO CUMMINS

POSSIBILITY OF DEMOCRATIC CONGRESS.

Waterloo, Ia., Oct. 12.—Vice President Fairbanks spoke to a large audience here this afternoon, formally opening the Republican campaign in Iowa. The vice president spoke along general lines and in behalf of the Republican party. He declared that a Democratic majority in the house this fall would mean disaster to the country. He paid a high compliment to Governor Cummins. Mr. Fairbanks said, in part:

"The campaign in which we are engaged is an important one. It has more than a purely local significance, for both state and national issues are involved and state and national officers are to be chosen. The result will, therefore, have greater or less influence on public thought and upon the welfare, not only of Iowa, but of the entire country."

## High Tariff, of Course.

"We have made our largest advance and prospered most as a people when we have adhered to a high and wholesome policy in government and we shall make our greatest progress in the future by holding fast to those measures and upholding that administration which have the fullest sanction of the best experience."

"It is important that policies and administrations which have demonstrated their efficiency should not be lightly overthrown, and new and untried policies, or policies which have been tried and found wanting, substituted for them. There is nothing so disturbing to business, so hurtful to progress, as uncertainty and shifting policies."

## Not Ready to Let Go.

"It is of the utmost importance, if we would attain to our highest development, that we should inaugurate wise policies and adhere to them until we have clearly outlived them and they are no longer reasonably suited to our needs. The business affairs of a great people must rest upon stability. The people must have a reasonable certainty that the foundations upon which they build are not to be swept away."

"It is possible, though not now probable, for a majority in the house to be converted into a majority for the opposition and thereby render it impossible for the national administration to receive that support which is necessary to enable it to carry out the important policies to which it stands committed."

Walter T. Mills' Lecture on Socialism Labor Hall, Wednesday, Oct. 17. Admission 15c.

## HAS RIGHT TO REMAIN.

Jung Yuen Was a Merchant When Exclusion Law Was Passed.

Cincinnati, O., Oct. 14.—Although a laborer at the present time, the fact that he was a merchant when the Chinese exclusion law was passed, saved Jung Yuen, a Cleveland Chinese, from deportation, the United States circuit court of appeals having so decided today. District Judge Taylor ordered Jung Yuen deported, as he was working in a Cleveland laundry when arrested. His attorney maintained that as Yuen was a merchant in New York at the time the law was passed he was, therefore, exempt from deportation, and the court of appeals today sustained this contention.

## Charcoal Kills Bad Breath

Bad Odor of Indigestion, Smoking, Drinking or Eating Can Be Instantly Stopped.

## Sample Package Mailed Free.

Other people notice your bad breath when you would not notice it at all. It is disgusting to other people. To stand before them and while you are talking, give them a whiff or two of your bad breath. It usually comes from food fermenting on your stomach. Sometimes you have it in the morning—that awful sour, bilious, bad breath. You can stop that at once by swallowing one or two Stuart Charcoal Lozenges, the most powerful gas and odor absorbers ever prepared.
